

STONE ART

DESIGN MEETS NATURE

Stone Art is a rich and striking yet subtle and simple natural stone collection, thanks to the careful balancing of colour effects and vein patterns to enhance various architectural effects.

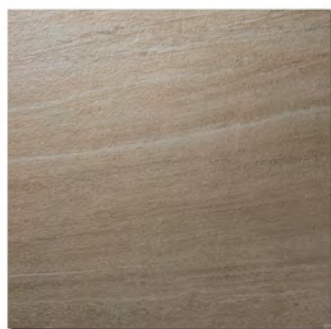

It exudes a sense of naturalness to deliver a more balanced and lighter form of expression in natural stone designs. This results in a stylistic simplicity which fits ideally into a multiplicity of contexts. Stone Art possesses a beautifully refined tone on tone vein pattern that is accentuated when laid in random composition.

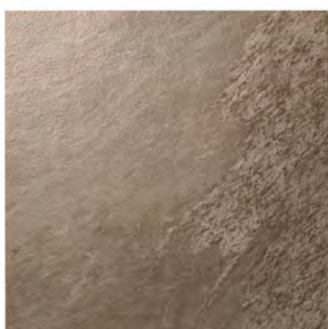

ESSENTIAL COLOURS

Originating from interior design trends with strong versatility for combinations, four distinct colours ranging from neutral to dark give character to its environment.

COMBINED FORMS

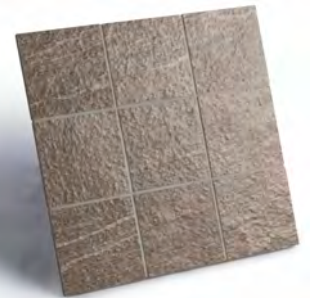

Derived from the harmonious combination of amethyst clusters and natural rock formations to produce a unique texture and surface. The chevron-inspired laying pattern is enhanced with a three-dimensional effect to bring an exciting touch to the design environment.
